

Trevar Hupf

Dedicated IT professional with a passion for continuous learning and a proven track record in managing complex IT environments.

WORK EXPERIENCE

Cloudbeds, Remote

SaaS company serving 22,000+ customers with a dedicated team of 700+ employees

IT Administrator

03/2022 – Present

- Implemented zero-touch deployment of Workspace One UEM and JAMF for cross-platform device management (macOS, Windows, Linux).
- Administered a complex cloud SaaS stack.
- Improved IT efficiency by automating processes through the use of APIs, scripts, and software (Postman and Zapier).
- Enhanced security using Okta SSO (SAML) and lifecycle management (SCIM), reducing vulnerabilities and improving access control.
- Configured cross-regionally load balanced company VPN using Microsoft Azure.
- Configured Azure SFTP for secure HR file transfers.
- Established and maintained a comprehensive knowledge base.
- Served as a dedicated escalation point for challenging IT support issues.
- Accountable for daily security responsibilities, encompassing endpoint detection and response, as well as domain and phishing monitoring.

Hopin, Remote

Formerly the fastest-growing European SaaS startup

IT Support Engineer

07/2021 – 02/2022

- Automated the onboarding process for new hires.
- Proactively addressed hardware and software issues, minimizing business disruptions while maintaining a 4.75/5 satisfaction rating.
- Administered Google Workspace, MDMs (Jamf and Intune), OneLogin, and various SaaS applications.
- Oversaw device procurement for a fully remote global company.
- Delivered exceptional IT support across diverse time zones.

Convercent by OneTrust, Denver, CO

SaaS company, acquired by OneTrust in 2021

Desktop Administrator

02/2021 – 07/2021

- Administered Mac and Windows devices using Microsoft Intune and Jamf.
- Responsible for asset management.
- Managed identities using Microsoft EntraID (Azure Active Directory).
- Streamlined onboarding processes using Power Automate.
- Encrypted device fleet using Bitlocker and Filevault.
- Managed complex SAAS stack.
- Provided excellent IT Support to US employees.

Poppulo (formerly Four Winds Interactive), Denver, CO

Digital signage startup, serving 7,000+ customers with a team of 250+ employees

Hardware Solutions Engineer II

02/2015 – 02/2021

- Designed solutions for automated deployment of Windows images to 5,000+ signage endpoints annually.
- Administered on-premise Windows Servers and network infrastructure.
